COAL FURNACE

LEGACY STOVES VF2500 STOKER FURNACE

ADVANCED DESIGN

The VF2500 features the updated VertiFlow Stoker System for maximum heating efficiency and extended burn times. Coal is fed upwards from the bottom of the hopper and automatically controlled based on heat output settings. This allows each piece of fuel to remain in intense heat throughout the burn cycle.

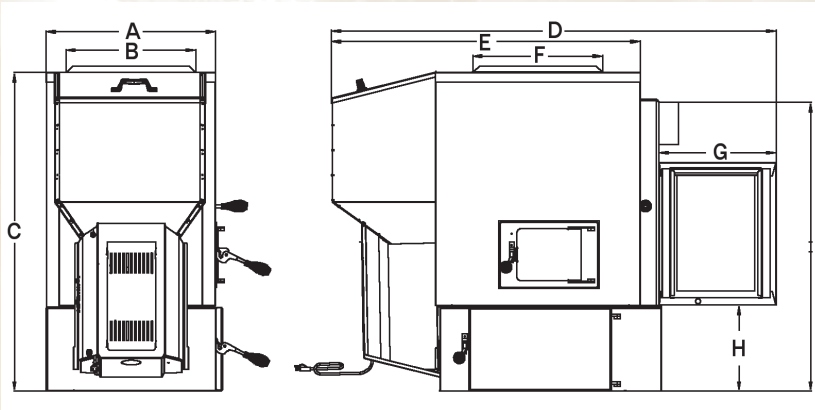

OLD FASHIONED VALUE

A large 250-pound hopper supplies fuel for up to five days. A large ash tub reduces ash removal frequency. Intuitive user controls are easily accessible and offer automatic temperature management.

Compare our product weight versus the competition at the same BTU output. We use heavier plate throughout our product lines. Rugged, over-engineered stoves, furnaces and boilers are a longstanding tradition for Legacy Stoves.

Features

- Legacy Stoves lift out grate system
- Latest Verti-Flow feeder
- Large ash tub
- 250 lb hopper
- Thermostat based temperature control
- High efficiency operation

Furnaces

Model	VF2500	VF2500 Plus
BTU/Hour Input	90,000	130,000
Heating Capacity	2,600 sq ft	3,600 sq. ft.
Fuel	Rice Coal	Rice Coal
Flue Size	6	6
Blower Size CFM	1,450	1,450
Weight (lbs.)	795	795
Filter Size	14 x 20 x 1	14 x 20 x 1
Air Flow Damper	Yes	Yes
Fan Control & High Limit	Standard	Standard
Thermostat	Standard	Standard
A. Width	26.5	26.5
Plenum Size B. x F.	20 x 20	20 x 20
C. Height	49	49
D. Length, overall	69	69
E. Length, less distribution housing	48	48
G. Length of distribution blower housing	18.5	18.5
H. Height of base	13	13
I. Height to top of flue collar	44.5	44.5
Clearance - right side	36	36
Clearance - left side	30	30
Clearance - front	36	36
Clearance - rear	24	24

Specifications subject to change without notice.
All dimensions in inches, unless otherwise noted.

"There is no comparison to what I had before. I was burning two pickup loads of wood a week, and I could never get it up to sixty degrees in the house when the temperature outside hit the teens. Since I purchased the VF2500, I have no trouble keeping my old farmhouse with drafty windows at 80 degrees, and I am not even running the unit at full capacity. I would recommend it to anyone who is looking for good, reliable heat."

- Matthew Swope
